9.Control Key

"ON/OFF": press to turn on, long press for 3 seconds to enter the inflatable mode.
"MODE": press to switch the different inflation mode.
"+"/ "-": increase/decrease inflation pressure.
"SOS": after power on, long press for 3seconds to open the LED, press to switch the light mode.

Technical specifications

Name:Car Jump Starter with compressor
Model:A17
MEAS:175*118*60MM
Battery type: Lithium ion
Charge cycles:2000 times
Charging time: 3-6H
Starting current:400A /500A/600A
Peak current:800A/1000A/2000A
Operating temperature:-30~65℃
LED Lumens:100LM
Applicable Models:12V Car
Charginng port:5V⎓2A/9V⎓2A/12V⎓1.5A
Output-port
USB Output :5V⎓2A/9V⎓2A/12V⎓1.5A
USB(5V):5V⎓2.1A
DC(12V):12V~16.8V⎓8A
Current consumption max:10A
Maximum pressure of the compressor unit:150psi
Maximum achievable pressure:3.5 bar
Continuous operation: max.5 min
Air flow rate:22L/min

ATTENTION!

1.After 5 minutes of continuous use, the machine will automatically (forcibly) stop running for 3 minutes and can only be restarted after 3 minutes.
2.When using the jumpstart,Ensure the power is not less than 60%.

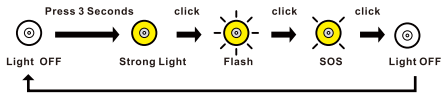
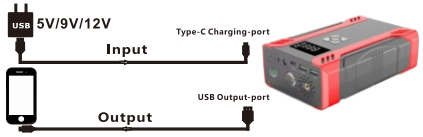
Personal safety

- This device may be used by children aged 8 years and older, and by persons with reduced physical, sensory or mental capacities, or a lack of experience and knowledge, if they are supervised or have been instructed in how to use the device safely and understand the dangers may arise when using it.
Do not allow children to play with the device.
Cleaning and daily maintenance are necessary
Do not be performed by children without supervision.
- Children must be supervised to ensure that they do not play with the device.
- Keep the device away from people – especially children – and household pets.
- Within the working area, the user is responsible for any damage or injury to third parties that was caused by the use of the device.
- During operation, never point the device at yourself or other individuals, and keep the device well way from your ears and eyes. There is a risk of injury!
- Do not leave the device unsupervised while running. Comply with the filling instructions for the inflatable item. The inflatable article could burst and cause serious injuries. Switch the compressor off before reaching the maximum permissible pressure.
- Keep the device in a dry location and out of the reach of children.

Switch on lighting("SOS" KEY)



Charging and discharging



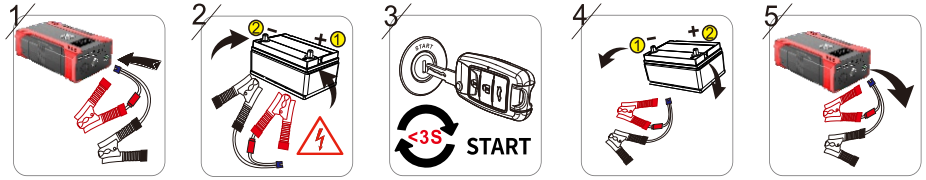
When charging, be sure to use a regular charger that matches its parameters. Do not use inferior charger to charge, otherwise safety accidents may occur. Please do not connect the over power products when outputting

Toxic and Harmful Substances

ITEM	Composftion and amount of toxic and harmful substances									
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE	DEHP	DBP	BBP	DIBP
Main Unit	O	O	O	O	O	O	O	O	O	O

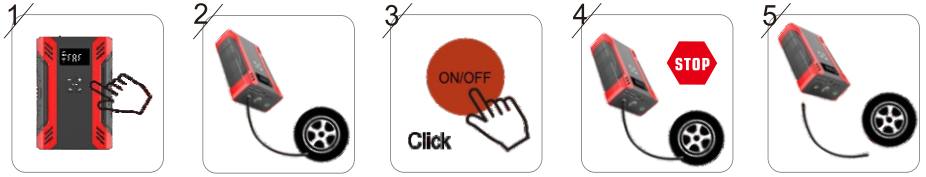
O:indicates all homogeneous materials'hazardous substance content are below the MCV limit specified in the standard (EU)2015/863.

Start Car Steps



Insert jumper cables into the Start port.
Connect red clamp to "+" end and black clamp to"-" (Don't reverse!)
Start the Car within 3 Seconds
Remove black clamp Remove red clamp
Pack away

Inflatable steps



Press "ON" 3 seconds to enter the inflation mode, press "MODE" to select the inflation mode, and "-" "+" to adjust the pressure.
Inflation hose connects inflation port and tire.
Press the "ON/OFF" button to start inflating.
The air pump will automatically stop after the inflation pressure reaches the preset value.
After inflation, remove the air pump hose.

ATTENTION: Please note that there is a certain air pressure impact when switching to the inflatable mode, DO NOT put the air pump outlet to the eyes or ears before opening.

ATTENTION! HOT SURFACE!
